Pragniemy by łazienka OPOCZNO była fascynująco piękna, nowoczesna i komfortowa.

Oryginalne koncepcje łazienek OPOCZNO powstały przy udziale najlepszych projektantów i architektów - ich wiedza i wyobraźnia zaowocowały stworzeniem niezwykłych kolekcji. W tym albumie chcieliśmy podzielić się inspiracjami, które były natchnieniem projektantów przy tworzeniu naszych serii. Mamy nadzieję, że każdy odnajdzie w tych inspiracjach i zaprojektowanych na ich bazie produktach swój niepowtarzalny styl, ulubione formy i kolory. Wierzymy, że staną się one impulsem do zmian i realizacji niebanalnych pomysłów.

### **CERAMIKA TYPOWA**

Powierzchnia standardowej ceramiki wydaje się idealnie gładka, jednak na dużym zbliżeniu wyraźnie widać, że jej faktura jest porowata i ma liczne mikroskopijne zagłębienia. To właśnie w tych rowkach osadzają się substancje mineralne zawarte w wodzie, tworząc trudny do usunięcia osad.

### **TYPICAL CERAMICS**

The surface of standard ceramics seems to be perfectly smooth, but when magnified, it is clearly visible that its texture is porous and has many microscopic cavities. Mineral substances contained in water accumulate in these cavities, creating difficult to remove residue.

### **CERAMIKA OPOCZNO**

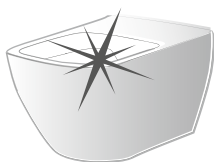

Ceramika marki Opoczno pokryta jest specjalną powłoką Perfect Clean, która likwiduje porowatość powierzchni. Na idealnie gładkiej fakturze nie osadzają się substancje mineralne, a woda spływa swobodnie w formie drobnych kropelek nie tworząc smug i zabrudzeń.

### **OPOCZNO CERAMICS**

Opoczno ceramics is covered with the special Perfect Clean coating, which removes the porosity of the surface. Mineral substances do not accumulate on a perfectly smooth texture and water flows freely in the form of fine droplets without forming smudges and dirt.

**POWŁOKA PERFECT CLEAN**  
**PERFECT CLEAN COATING**

### NAJWYŻSZY STANDARD HIGIENY THE HIGHEST STANDARD OF HYGIENE

Miski bezkołnierzowe są wyjątkowo higieniczne i łatwe do utrzymania w czystości. Gładką powierzchnię można wygodnie i sprawnie umyć bez konieczności użycia silnych detergentów.

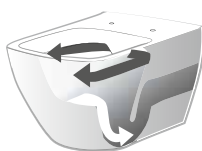

No-rim bowls are extremely hygienic and easy to clean. Their smooth surface can be conveniently and efficiently cleaned without the use of strong detergents.

### TECHNOLOGIA BEZKOŁNIERZOWA NO-RIM TECHNOLOGY

Wyeleminowanie wewnętrznego kołnierza miski, pod którym zwykle gromadzą się trudne do usunięcia bakterie, gwarantuje wyższy poziom higieny i bezpieczeństwa w toalecie.

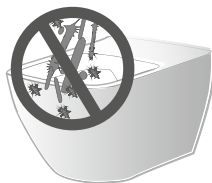

Eliminating the inner rim of the bowl under which difficult to remove bacteria usually accumulates guarantees a higher level of hygiene and safety of the toilet.

### INNOWACYJNY SYSTEM SPŁUKIWANIA AN INNOVATIVE FLUSHING SYSTEM

Dzięki odpowiednio ukształtowanemu profilowi miski strumień wody jest kierowany w taki sposób, że cała wewnętrzna powierzchnia jest dokładnie opłukiwana.

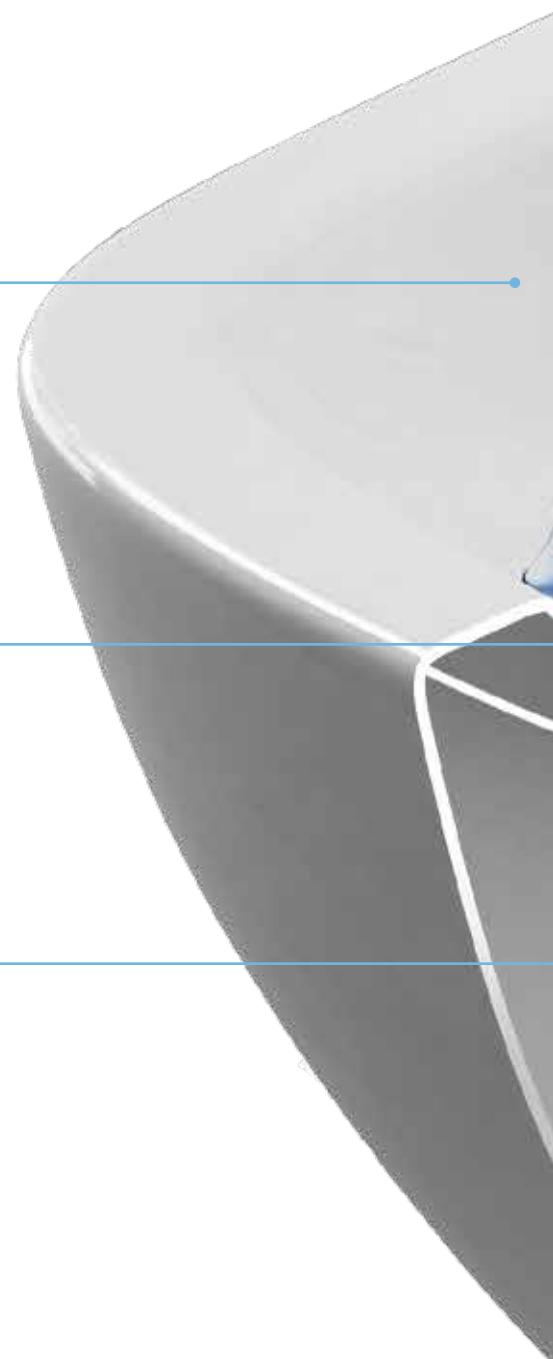

The profile of the bowl directs the water flow in such a way that the entire inner surface is thoroughly rinsed.

### BRAK BAKTERII I ZARAZKÓW NO BACTERIA OR GERMS

Usunięcie wewnętrznego kołnierza i dokładny system opłukiwania sprawiają, że brud i zarazki nie mają się gdzie gromadzić.

Dirt and germs have no place to accumulate due to the removal of the inner rim and the accurate rinsing system.

### **ANTYBAKTERYJNOŚĆ**

W procesie produkcji desek toaletowych Opoczno stosuje się jony srebra o działaniu bakteriobójczym. Taka warstwa ochronna zwiększa poziom higieny i bezpieczeństwa użytkowania.

### **ANTIBACTERIAL PROPERTIES**

Opoczno toilet seats are manufactured with the use of silver ions that have a bactericidal effect. Such a protective layer increases the level of hygiene and safety of use.

### **INNOWACYJNY DESIGN**

Deski toaletowe Opoczno są wyjątkowo płaskie przez co prezentują się bardzo elegancko, lekko i delikatnie, wysmuklając tym samym bryłę ceramiki. Dzięki specjalnie profilowanym opływowym kształtom są również bardzo wygodne w użytkowaniu.

### **INNOVATIVE DESIGN**

Opoczno toilet seats are exceptionally slim which make them very elegant, light, delicate. As such they streamline the shape of ceramics. Thanks to specially contoured smooth shapes slim toilet seats are also very comfortable in use.

# StreetFUSION

## Ceramics & Furniture

STREET FUSION to oryginalna stylistyka produktów, oparta na kontrastach.

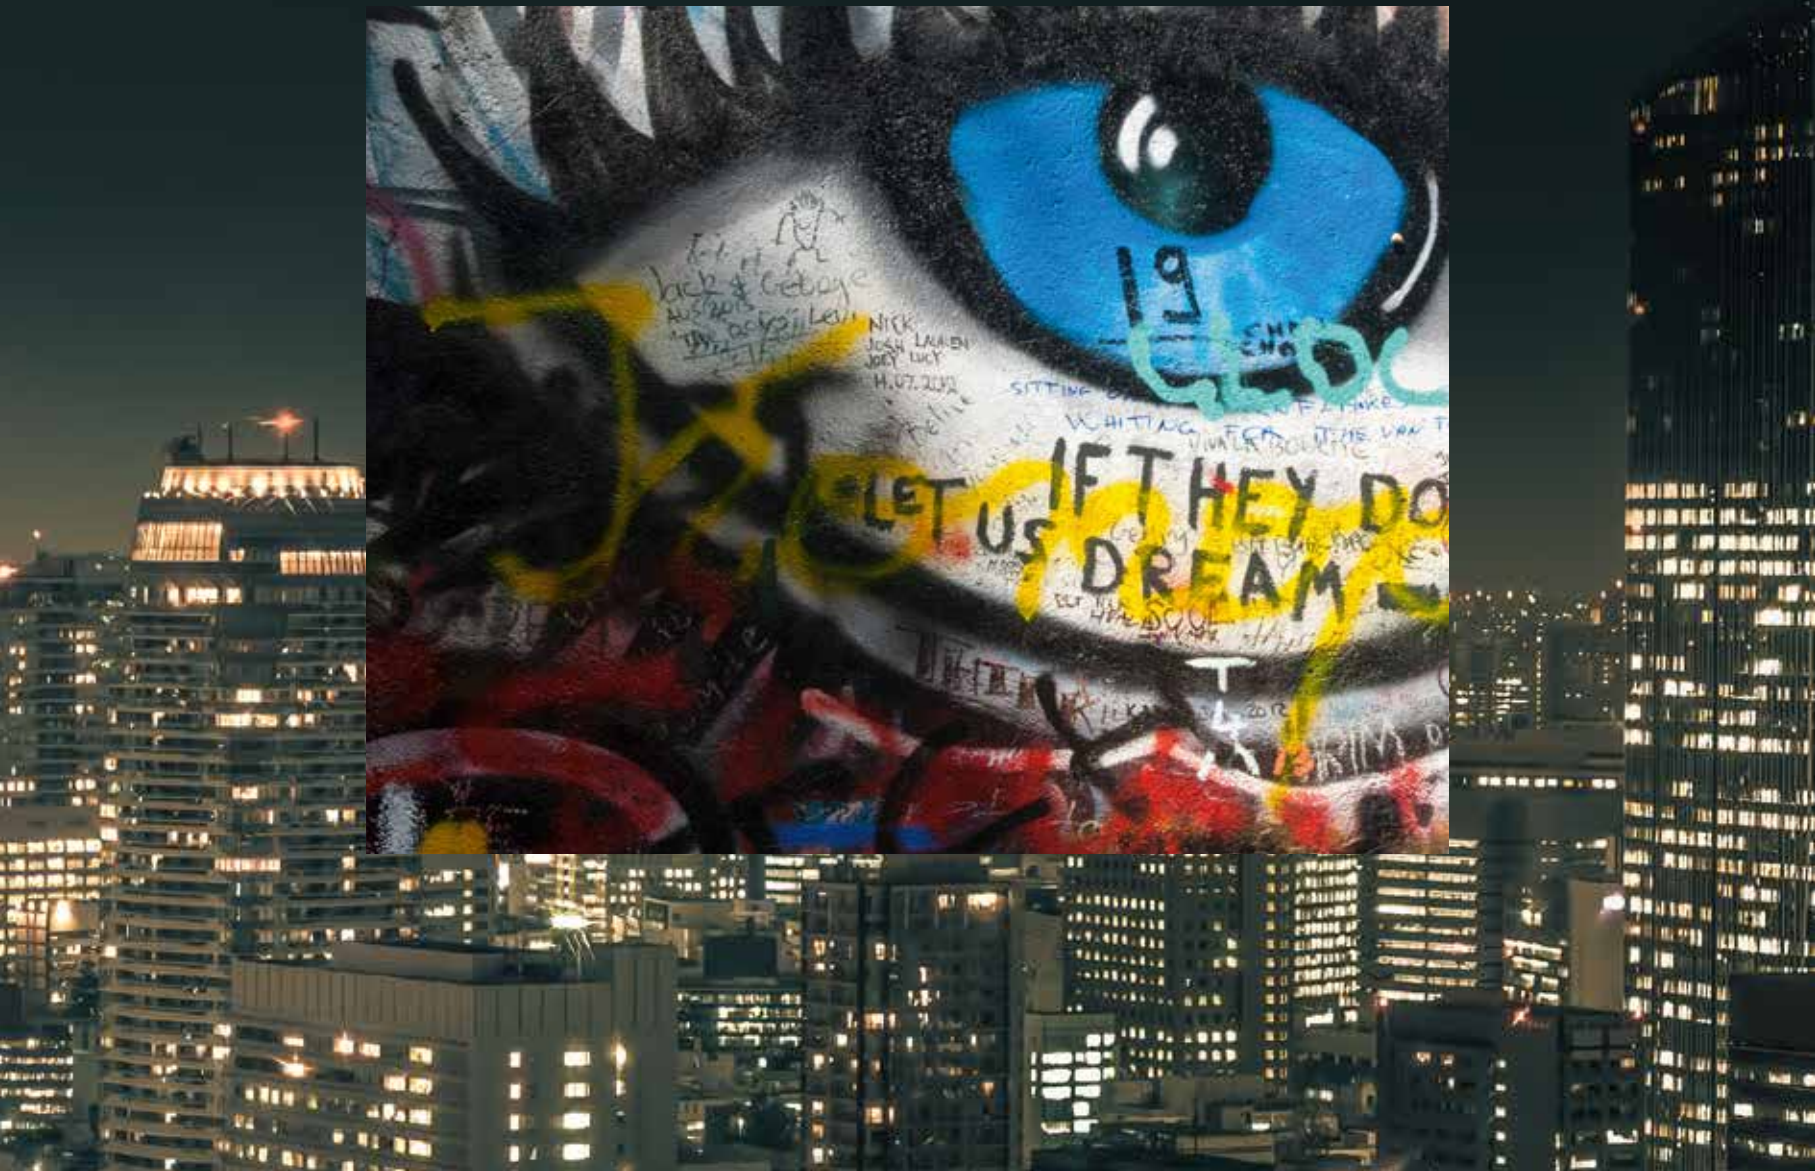

Przeznaczona jest dla osób, które lubią niestandardowe rozwiązania.

Zestawienie białej ceramiki z ciemnymi kolorami okleiny meblowej i ostrymi liniami frezowanych uchwytów dodaje serii zdecydowanego charakteru.

STREET FUSION offers an original design of products based on contrasts.

It is designed for people who like custom solutions. The combination of white ceramics with dark colours of furniture veneer and sharp lines of milled handles gives the series a firm character.

## Ceramics & Furniture

Ceramika High Street ma oryginalne, organiczne kształty, w których delikatny owal bryły przełamano ostrzejszymi, zdecydowanymi liniami boków.

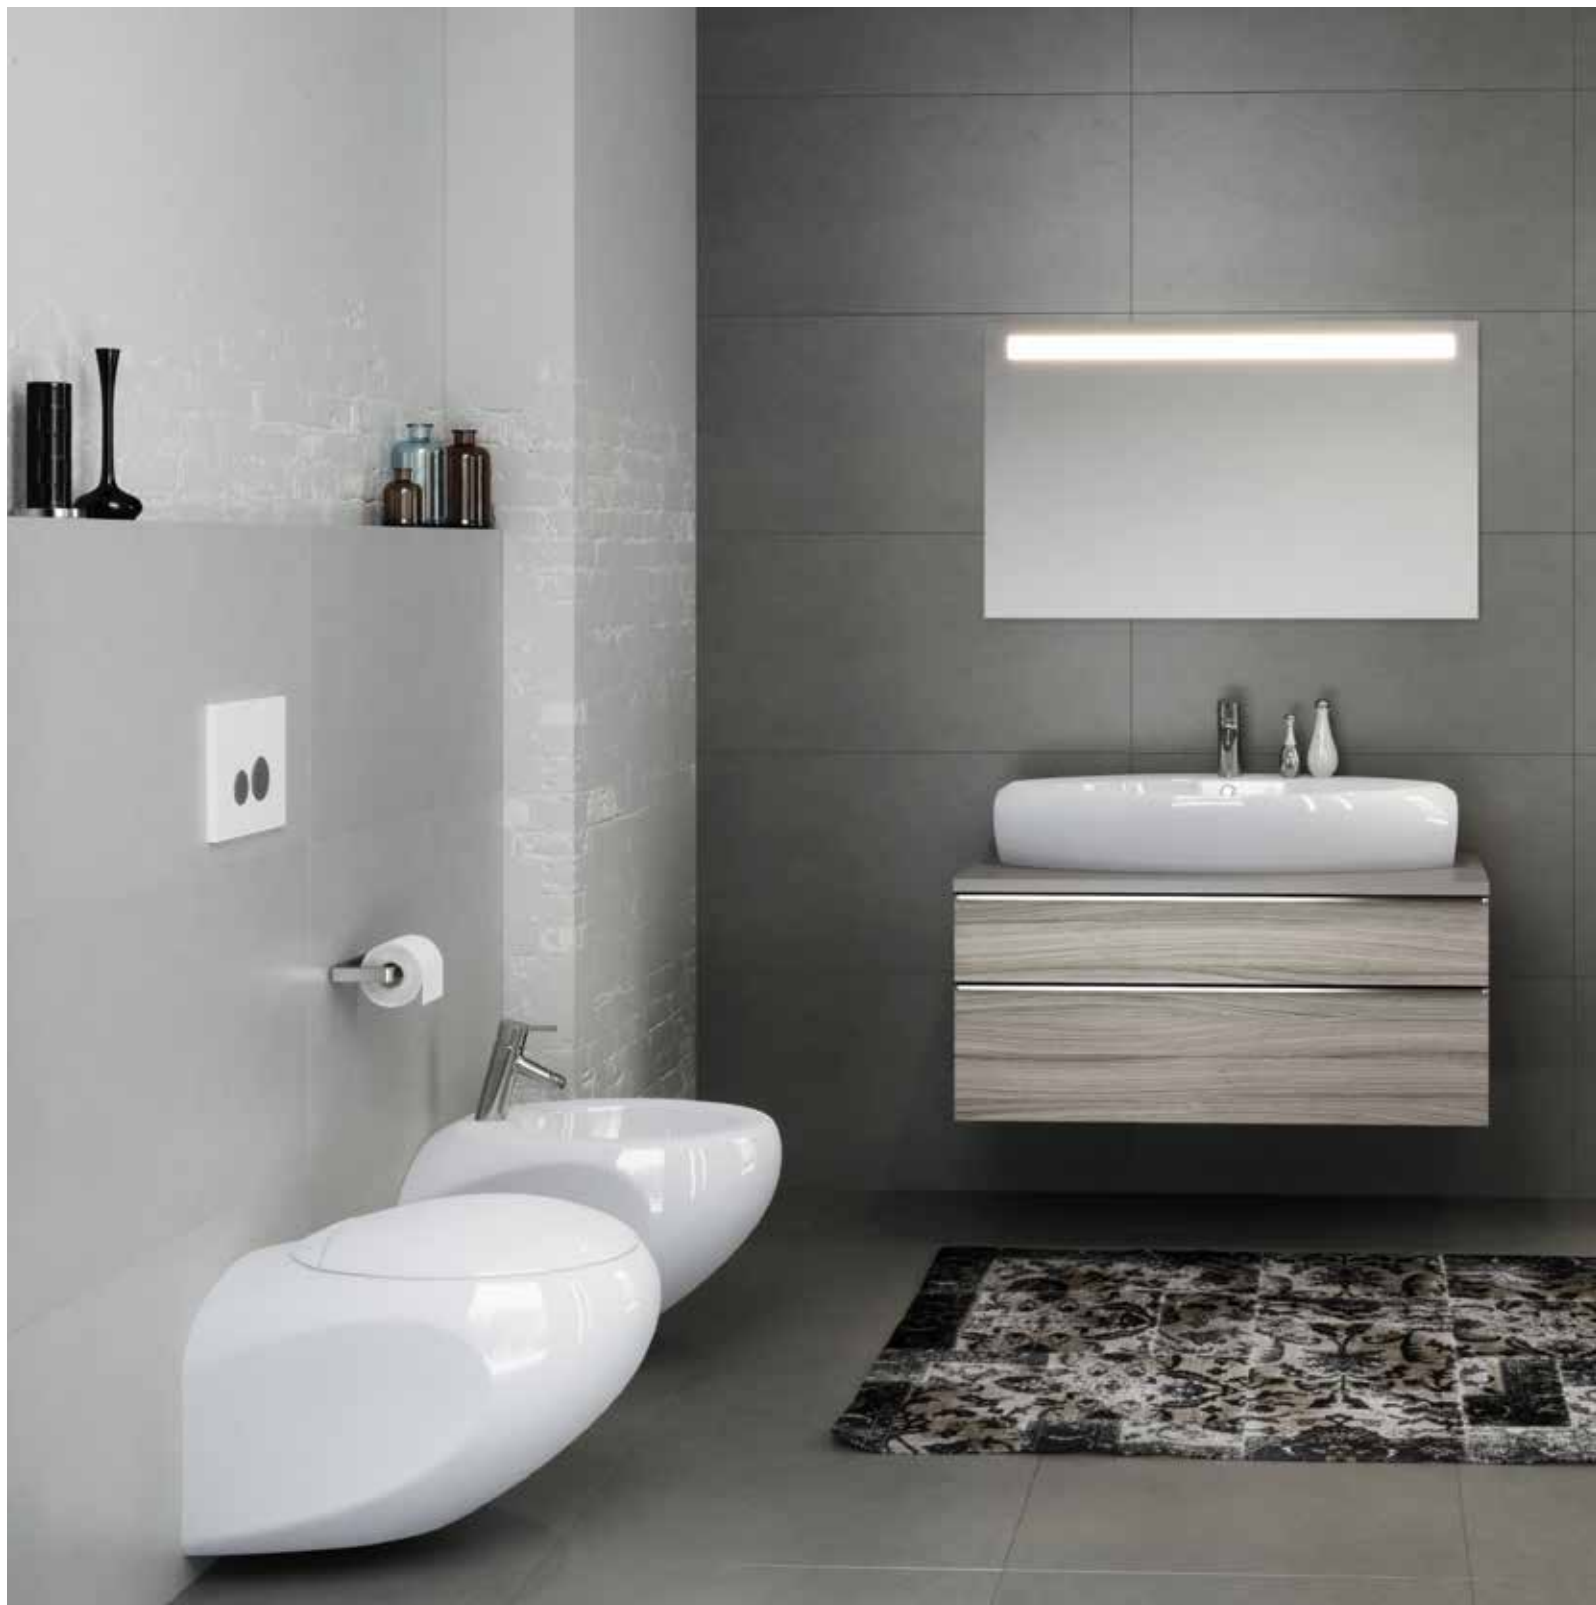

To sprawia, że ceramika nabiera drapieżnego charakteru.

Seria idealna do niekonwencjonalnych, wyrafinowanych salonów kąpielowych.

High Street ceramics has an original, organic shapes in which delicate oval solid has been broken by sharper and stronger lines of the edges. This makes the ceramics assume a more predatory character. A series ideal for unconventional, sophisticated bathing salons.

A close-up photograph of a white, glossy plastic surface, likely a car's interior trim. The surface is covered with numerous small, clear water droplets. A prominent horizontal groove runs across the upper portion of the frame. Two black arrows originate from the top edge of the image: one points left towards the groove, and the other points right, also towards the groove. The lighting is soft, creating subtle highlights and shadows on the plastic's surface.
